

Dr. TANABE Shinji

Dr. Tanabe was working for Mitsubishi Electric as an R&D engineer for about 40 years. And now, he is teaching at two universities as a part time.

Dr. Tanabe received his B.S. on physics from Tohoku University in 1980, and his Ph.D. on wireless communication technologies from Tohoku University in 2003.

His technical expertise is on magnetic materials, electromagnetic field analysis and EMC (Electromagnetic Compatibility). He has been involved in standardization activities at IEEE and IEC for long years. He is an IEEE Life Senior Member, IEEE Kansai Section Board Member, and IEEE Standard Association Asia Pacific Regional Advisory Group Member.
