

**Dr. Damien PAINEAU, INRAE
France**

Profile

Since February 2022, Dr. Damien PAINEAU is the Chief Executive Officer of « Ferments du Futur », a public-private partnership coordinated by INRAE and set up to accelerate research and innovation in ferments, fermented foods and biopreservation. After receiving his PhD in Human Nutrition from AgroParisTech in 2008, he started his career in the field of clinical and epidemiological studies. Then he joined a private company in which he held various positions as Research and Innovation Director, both in Europe and abroad (Singapore). He is now in charge of setting up and implementing Ferments du Futur strategy and roadmap.
