

**Prof. MIKE Gidley, University of Queensland
Australia**

PROFILE

Emeritus Professor Mike Gidley is with the Centre for Nutrition and Food Sciences at the University of Queensland, Australia.

His research is focussed on structure - function - nutrition relationships in plant-based foods and ingredients both in vitro and in vivo, with the understanding generated leading to opportunities for optimising the nutritional value of foods and feeds.

Prof Gidley also co-chaired the development of 'Nourishing Australia – a decadal plan for the science of nutrition' under the auspices of the Australian Academy of Science.
